Project RISE enables 50 disaster preparedness Master Trainers in Iloilo City

The PTC Project RISE team, together with the Asia Society for Social Improvement and Sustainable Transformation, successfully completed the Master Trainer

Program (MTP) for Iloilo City on November 16, at the Diamond Jubilee Hall, in Iloilo City.

As part of the MTP program, 50 multisectoral participants were able to conduct a demonstration among their breakout groups as a means to practice the conduct of the Citizen Training Program (CTP) in their respective sectors and communities.

Special thanks go to the Iloilo City Disaster Risk Reduction and Management Office, headed by Ms. Donna Magno, and to all Iloilo CDRMO Personnel, for their assistance and support in making the activity possible.
