## *Teaching Sto. Rosario National High School cadets about disaster resiliency*

The Project RISE Team visited the Sto. Rosario National High School last October 17 and was warmly welcomed by the faculty members, headed by its School Head, Mr. Jayson M. Flores, and the Senior High School (SHS) Students of the Maritime Strand under the Technical-Vocational and Livelihood (TVL) Track.

Sto. Rosario National High School is the first and only public Senior High School offering Maritime Strand under the TVL Track in the province of Pampanga.

As part of this visit, SIP-PEP Lead Program Officer Josh P. McCarver facilitated the Master of Disaster (MOD) Board Game to 30 Maritime Strand SHS Students, where they got to play and experience the game and learned about disaster preparedness and response, all while having fun.
